## Ballots Will Be Printed.

Guthrie, Aug. 27.—The state election board met here today and organized by electing acting Governor Charles H. Filson chairman. The other two members are Jerome Harrington (rep.) of Watonga, and Judge C. A. Galbraith (dem.) of Ada.

The contract to print the 2,000,000 ballots necessary for the state and constitutional election on September 17 was let to W. E. Verity and W. L. Chapman of Shawnee for \$12,440.

Bids were submitted by the Guthrie Daily Leader for \$16,729 and Hobart News-Republican for \$65,900.

George T. Robinson, negro, of Watonga, filed his petition to get on the ballot as an independent candidate for congress in the second district, the regular republican nominee being ex-Gov. Tom Ferguson.

Today was the last day that certificates of nomination could be signed. The board will hear all contests tomorrow.

## For Statehood.

Taylor Lanham, republican nominee for county commissioner, was in the city. Mr. Lanham says that he is for statehood and is of the opinion that he will vote for the constitution. He does not endorse every provision, but he suggests that there never was a constitution that pleased everybody. He expressed himself as not in favor of a territorial form of government.

# RAILROADS IN DISTRESS

## Early Morning Wreck on Frisco Siding--Canadian Bridge Burned--Rumors of Dangerous River Rise.

It has been a strenuous twenty-four hours with the railroads in this vicinity. At 8 o'clock this morning a broken rail on the Frisco siding wrecked the switch engine, tender and a coal car and came near resulting in serious injury to fireman John Colvin. The switching crew, composed of Jim Boggs, conductor, Engineer C. R. Overly and Fireman John Colvin, had arrived from Francis and begun the day's work in Ada. As a string of cars was being pulled along the side track adjacent to the ice plant a rail supposed to be defective broke and collapsed under weight of the engine. The tender and a coal car in its rear left the track and fell over on the side; the engine remained upright, but all but one truck were off the track which coupled with injuries to its mechanism renders it entirely hors de combat. Fireman Colvin had just entered the tender to replenish his fire when the crash came, hurling him through a narrow aperture into the ravine below. Fortunately he escaped without injury. The head brakeman, seeing the cars in front falling, jumped from a car roof and sustained no injury. Engineer Overly says both engines and tender are badly damaged. Arrival of the wrecker from Francis was delayed several hours, waiting for an engine to pull it hither.

Had the cars fallen on the south side instead of the north the ice plant would have been badly demolished, but it escaped untouched. It will take the wrecker 15 hours, probably, to clear the track. About 8 o'clock Tuesday night the Frisco bridge across the South Canadian river, just north of Francis, caught fire and 12 bents of the bridge are reported destroyed. This bridge is three-fourths of a mile long, built largely of wood. While the origin of the fire is unknown, it may have been accidental. Many leaking oil trains pass over this line, saturating the timbers so that a small ember from a locomotive might start a disastrous fire. Since the southbound 8:23, Tuesday night, all Frisco trains have been detoured over the Katy via Shawnee to Holdenville. This arrangement must continue probably for two or three days, until the bridge is repaired. Some of the railroad men hope the company may be persuaded to build a durable concrete structure over the Canadian.

There have been current some exaggerated reports about dangerous rises recently on the Canadian, even to the effect that 300 men were hurried to the Katy bridge at Tyrola to save it from the high water and floating debris. But this was not confirmed at the Katy station. There has been a pretty big rise in the river, originating out in New Mexico, but no uneasiness is felt regarding the bridge. At present the water flow is normal. It is also rumored that another big rise, five feet high, is expected to reach the Tyrola bridge this afternoon. Two other accidents are to be added to the day's calendar of trouble. A Frisco employee, while speeding on his railroad bicycle from the river last night to inform officials at Francis of the fire at the bridge, ran into the Sasakwa section crew, who were returning home on a handcar from Francis. It is reported that one man suffered a broken leg in the collision. About 11:30 this morning in the Francis yards there was a head-on collision between two freight engines. Slight bruises were received by a passenger, by one of the engineers and by one of the firemen. Little further damage is reported, beyond the demolition of the two cow-catchers.

# WILL PROSECUTE STRIKERS

## Western Union Charges them with Causing Trouble on the Wires--Operators Deny the Charge.

Chicago, Aug. 27.—Criminal prosecution of railroad telegraph operators, who out of sympathy with the striking commercial men are causing trouble on the wires is threatened by the officials of the telegraph companies. The Western Union Company, which is the greatest sufferer in this respect, has been secretly conducting an investigation, and a number of arrests are expected at any time.

Superintendent T. P. Cook of the Western Union, declared today that a detective would be placed in every office in the country, if the interference with the wires assumes such proportions as to make that course necessary. The Western controls the wires on practically every railroad in the country, and its commercial business in many instances goes through the railroad offices. Since the beginning of the strike it is said the trouble with the wires has caused more inconvenience than has the lack of operators. While he was unwilling to admit that there was any serious interruption to business, Mr. Cook said an investigation was under way and some of the alleged guilty parties might find themselves in an embarrassing position before long. He would not say where he expected arrests to be made, but declared that the statutes on the subject were strict and the company was not asleep in the matter.

At union headquarters, the strike leaders disclaimed any responsibility for the trouble. "There is more or less wire trouble under the most favorable conditions," said Secretary Wesley Russell. "The Western Union usually employs from thirty to forty men in its Chicago office, whose business it is to look out for wire trouble. Since the strike was called there are four men trying to do the work there. Many test offices were closed by reason of the strike, which further complicates matters. We have issued orders to our members not to meddle with the wires in any way, and the officers of the Order of Telegraph operators have issued similar orders to their members."

James M. Humphreys, Republican nominee for District Judge, Seventh Judicial District.

### BIOGRAPHICAL.

The subject of this sketch is a self-made man. On the farm, in the mine, and at the desk early and late, J. M. Humphreys carved out for himself that elusive but ever sought for result—success.

Born more than forty years ago on a farm in Ohio, and emigrating to a farm in Missouri by the "kivered wagon" route when ten years old, he spent his boyhood and early manhood tilling the soil in summer, attending school in winter, till he was enabled to teach a school in winter months and teach a country school. By close economy he was enabled to take a collegiate education and secure the degrees of Bachelor of Science and Bachelor of Didactics. After being principal of schools for several years he caught the gold fever of Colorado and emigrated. After working for several years in the gold mines when the big strike came, he, with many of his fellow workers, left the state. He then entered the university of Nebraska, where he soon graduated from the law department with high honors.

As the field for his life's work, within four years he has, by keen ability, unswerving honesty and the possession of a fine judicial mind, soared upward in his profession, until today he occupies an enviable position at the bar equalled by few.

When the unanimous request of the delegates from the Seventh Judicial District was made known to Mr. Humphreys he considered the honor conferred upon him should not be refused and accepted the nomination, though well knowing that such acceptance would entail no small financial sacrifice.—Executive Committee.

### ELI W. MORRIS.

#### Republican Nominee for Sheriff.

Eli Morris is at present the efficient U. S. constable at Ada. He has held this office for three years, during which time he has faithfully scoured the 16th recording district and adjacent territory, bringing many a fugitive criminal to justice.

Eli's long suit is catching horse thieves, a work he has been engaged in for sixteen years. For seven years he has been serving as a federal peace officer, and many are the farmers in this country who bear him a lasting debt of gratitude because of stolen stock recovered through his untiring efforts. He knows Pontotoc county like a book; knows every man, good or bad, every nook and crook, and pretty near every horse and cow.

Mr. Morris was born 40 years ago in old Titus county, Texas, in which state he resided until coming to the Chickasaw Nation eight years ago. He wishes voters to understand if elected the county's first sheriff his every effort will be devoted to the service of all the people and to making this an orderly, lawabiding community.

**GIDDINGS WILL SPEAK.**  
It is announced today from democratic state headquarters that Hon E. J. Giddings, of Oklahoma City, will speak in Ada Thursday night.

The meeting will probably be held in the open air, and Geo. Thompson, chairman of the county committee, says the county democratic nominees, now out in the country, will all be present and make brief addresses to the voters. Also a democratic club will be organized.

A big time for democracy is vouchsafed. Everybody should be on hand. Mr. Giddings is a gifted orator. 136-2r

## DRUMMER'S DAUGHTER WINS.

Daughter of B. A. Whitaker, Who Fre-  
quents Ada Elected Labor Day  
Queen.

After the most spirited contest of the kind in the annals of the city, Miss Maud Whitaker, candidate of the Commercial Union, was elected last night by 13,954 plurality, over Miss Nellie Murinsky, choice of the garment workers union and Miss Sloan, the Rock Island employees' candidate.

The total vote cast was 72,130, which at one cent a vote brought in the neat sum of \$721.30.

Miss Whitaker was chosen queen of the labor day pageant, is a charming and beautiful young lady, daughter of a traveler of a wholesale house and a resident of this city. She will fill with grace and modesty the honorable and exalted position of queen of labor, and will lead the parade on Monday, the 2nd of September in the greatest labor demonstration ever held in the state.—Shawnee News.

Mr. Whitaker requested that The News express his appreciation to all in Ada who lent their assistance to his daughter in this contest.

## MADE ROUGH HOUSE.

Hatcher Brothers Started Trouble in  
Foster's Restaurant.

About 8 o'clock Tuesday night Frantz and Jack Hatcher, in rather a hilarious condition, invaded Joe Foster's restaurant.

"When Joe demonstrated with Frantz for using profane language, reminding him that there were ladies in the rear part of the house," says an eye witness, "Frantz yelled 'G—d— the ladies.' Joe told him to get out of the house, or he would put him out." Frantz defied him to and made a pass at Joe. Young Arthur Dodd who works in the place, stopped him with a blow from a bottle. Thereupon Jack Hatcher drew a six shooter, shot into the ceiling, then apparently realizing that he had got into trouble fled out and down the street with pistol in hand. But he was overtaken by Jim Couch and turned over to the federal officers.

Jack was arrested charged with assault with intent to kill, Frantz for a mere misdemeanor. Both men soon made bond and were released.

I handle the best quality of fresh meats. A. W. White, successor to Owens & White, South Broadway. 132-tf

## Dangerously Wounded.

Drs. J. R. Runyan and R. F. King, who were called hastily to see Dr. Coffee at Stonewall Tuesday afternoon, returned home this morning, reporting Dr. Coffee in a very serious condition resulting from knife wounds inflicted by Dr. Breco.

The difficulty occurred in J. O. Crawford's drug store and is said, to have arisen from Breco's resenting Coffee's waiting upon one of Breco's patients without consulting Breco. The latter is alleged to have been the aggressor, with a surgical knife, inflicting five or six ugly wounds on the body of Coffee while the latter defended himself with his fists. The two dangerous stabs penetrated the abdominal cavity and the spleen. Coffee's condition is deemed quite critical.

Both men are prominent physicians at Stonewall. J. O. Crawford is said to be the sole eye witness of the difficulty.

Insist on your merchant giving you Electra and Sunray oils. Better and cheaper in the long run. 128-tf

## Ada's Ice Consumption.

Under the management of Harry Parks, the Ada Ice factory is running regularly now providing eight tons a day. With the addition of 11 tanks or jackets to replace those worn out the plant's capacity would be eleven tons. Considering the growing demand for ice in Ada it is possible the plant's full output may be needed to supply Ada next summer.

It is estimated that the present local demand is seven and a half tons, a little more than the local supply for the reason that a ton is shipped from here each day to nearby towns.

Ladies, La Gloria is a quadruple extract flower perfume, guaranteed and sold by Gwin, Mays & Co. 135-3t

## Gas Well Progress.

The gas well is still only 780 feet deep, but the drillers say they are in excellent shape for fast work as soon as they receive a necessary tool looked for on every train. The butting in of more water at a low depth, and the consequent readjustment of casing, has retarded the work several days.

Patronize home industry. Ask your merchant for Electra and Sunray oils. 128-4t

Mr. and Mrs. W. W. Higgins, now of Houston, Texas, are visiting in their old home a few days. They have been having a delightful outing on the gulf coast.

ico, N. M., to join her husband, who  
is the new manager of the oil mill.  
She is accompanied by Mrs. S. J.  
Franklin.

## Calhoun's Old Home.

"South Carolina has a tract of  
ground which is preserved for the  
Southern children of coming genera-  
tions, as the government is saving  
Mount Vernon for those of the nation,"  
said W. D. Evans of Clemson, S. C.

"I refer to the former home of John  
C. Calhoun. Calhoun's home was a  
beautiful estate of 1,100 acres. A  
part of the land is now occupied by  
Clemson college, and the campus is  
one of the largest and most beautiful  
of any college in America. The state  
has taken steps to preserve the Cal-  
houn property, and makes annual ap-  
propriations for keeping the grounds  
and outbuildings in order. It is a typ-  
ical Southern mansion, with wide ver-  
andas, and was the scene of many a  
notable gathering in the lifetime of  
South Carolina's most beloved and fa-  
mous statesman."

"The Calhoun home is dear to the  
hearts of all South Carolinians, for  
we shall always look with reverence  
on the memory of one of America's  
greatest men, as Calhoun was uni-  
versally conceded to be."—Washington  
Post.

## WILL PROSECUTE STRIKERS

terious manner gone out of commis-  
sion, when important business was in  
the course of transmission. In many  
of the railroad stations the wires of the  
Western Union are cut through, but in  
others the pulling of plug will put a  
wire out of commission. Nearly every  
state in the union has very strict  
laws bearing on the interference with  
telegraph wires.

## May Strike in Canada.

Chicago, Aug. 27.—"I should not be  
surprised at any time if the Canadian  
operators had left their keys," said  
Secretary Wesley Russell. "We have  
had recently a half-dozen requests to  
strike. Canadian operators are tired  
of working with non-union men at St.  
Paul, Minneapolis, Detroit and Buf-  
falo."

According to reports received to-  
day 2,000 cablegrams from Mexico and  
South American points and destined  
for Europe, are delayed at Galveston,  
Texas.

## INDIAN SHOT BY WHITE BOY

Sam Tobal, a full blood Indian, was  
shot by a seventeen year-old white  
boy at Citra Monday afternoon late,  
and at last report is in a very critical  
condition.

It seems that the Indian tanked up  
on liquor, after quarreling with the  
boy about a base ball game, uncer-  
moniously took the boy's horse and  
loped out of town, whereupon the boy  
enraged, procured another horse and  
a sixshooter, pursued the Indian, and  
upon overtaking him shot him twice  
near the region of the heart.

Such is the story M. E. Donaghey  
brings back home. He was in Citra  
just a short time before the tragedy  
occurred.

Ada people should ask their mer-  
chants for Electra and Sunray oils.  
They are better than the trust oils.

## Miss Tarbell Jubilant.

Miss Ida M. Tarbell, who has de-  
voted twenty years of her life to fight-  
ing the Standard Oil Company for  
its share in ruining her father, is  
jubilant over the fine imposed on the  
"octopus" by Judge K. M. Landis, in  
Chicago, and says that the days of the  
giant trust are numbered. She does  
not mean that Standard Oil will at  
once go out of business, but says that  
the methods of the past thirty-five  
years, during all of which time it has  
violated the law and ruined thousands  
of small dealers, will gradually be  
dropped because of the activity of the  
government in fighting for the rights  
of the people under the law.

Miss Tarbell is probably the ablest  
woman writer on financial topics in  
the world. She has for years made a  
study of corporation methods and is  
considered a past authority. Her  
"History of the Standard Oil Com-  
pany" is one of the greatest exposes  
of trust methods ever added to liter-  
ature and brought her world-wide  
fame.

## RAILROADS IN DISTRESS

### Early Morning Wreck on Frisco Sid-ing--Canadian Bridge Burned--Rumors of Dangerous River Rise.

It has been a strenuous twenty-four hours with the railroads in this vicinity. At 5 o'clock this morning a broken rail on the Frisco siding wrecked the switch engine tender and a coal car and caused a resulting serious injury to fireman John Colvin. The switching crew composed of the Frisco conductor, Engineer C. H. Overly and fireman John Colvin had arrived from Francis and begun the day's work in Ada. As a string of cars was being pulled along the side track adjacent to the ice plant, it is supposed to be defective broke and collapsed under weight of the engine. The tender and coal car in its turn fell on the track and fell over on the side. The engine remained upright but all but one rail on the track which was coupled with injuries to its mechanism and is it entirely horsed about. Fireman Colvin had just entered the tender to replenish his fire when the crash came, hurling him through a narrow aperture into the river below. Fortunately he escaped with the injury. The head brakeman, Sam, the engine tender, fell from a high roof and sustained a serious injury. Engineer Overly says both engines and tender are badly damaged. Arrival of the wreck crew in Francis was delayed several hours, waiting for a crane to pull it higher.

It is said that the south siding instead of the north the ice plant would have been badly demolished but it escaped untouched. It will take the wreckers 1 hour or more to clear the track. About 8 o'clock Tuesday night the Frisco bridge across the South Canadian river just north of Francis caught fire and the lights of the bridge are reported destroyed. This bridge is three-fourths of a mile long, built of timber and wood. While the origin of

the fire is unknown, it may have been accidental. Many leaking oil tanks pass over this line, saturating the timbers so that a small ember from a locomotive might start a disastrous fire. Since the southbound 23 Tuesday night all Frisco trains have been detoured over the Katy via Shawnee to Holdenville. This arrangement must continue probably for two or three days until the bridge is repaired. Some of the railroad men hope the company may be persuaded to build a durable concrete structure over the Canadian.

There have been current some exaggerated reports about dangerous rises recently on the Canadian even to the effect that 300 men were hurried to the Katy bridge at Viola to save it from the high water and floating debris. But this was not confirmed at the Katy station. There has been a pretty big rise in the river originating out in New Mexico but no one seems to be reporting the bridge. At present the water flow is normal. It is also reported that another big rise five feet high is expected to reach the Viola bridge this afternoon.

Two other accidents are to be added to the list of trouble. A Frisco employee while speeding on his railroad bicycle from the river last night to inform officials at Francis of the fire at the bridge ran into the Suskwa section crew who were returning home on a handcar from Francis. It is reported that one man suffered a broken leg in the collision. About 11:30 this morning in the Francis yards there was a head-on collision between two freight engines. Slight houses were received by a passenger by one of the engines and by one of the firemen. Little further damage is reported beyond the demolition of the two cow-catchers.

## WILL PROSECUTE STRIKERS

### Western Union Charges them with Causing Trouble on the Wires--Operators Deny the Charge.

Chicago, Aug. 27.—Criminal prosecution of railroad telegraph operators who out of sympathy with the striking commercial men are causing trouble on the wires is threatened by the officials of the telegraph companies. The Western Union Company, which is the greatest sufferer in this respect, has been secretly conducting an investigation and a number of arrests are expected at any time. Superintendent L. P. Cook of the Western Union declared today that a detective would be placed in every office in the country if the interference with the wires assumes such proportions as to make that course necessary. The Western controls the wires on practically every railroad in the country and its commercial business in many instances goes through the railroad offices. Since the beginning of the strike it is said the trouble with the wires has caused more inconvenience than has the lack of operators. While he was unwilling to admit that there was any serious interruption to business, Mr. Cook said an investigation was under way and some of the alleged guilty parties might find themselves in an embarrassing position before long. He would not say where he expected arrests to be made but declared that the statutes on the subject were strict and the company was not asleep in the matter.

At union headquarters the strike leaders disclaimed any responsibility for the trouble. There is more or less wire trouble under the most favorable conditions," said Secretary Wesley Russell. "The Western Union usually employs from thirty to forty men in its Chicago office, whose business it is to look out for wire trouble.

James M. Humphreys, Republican nominee for District Judge, Seventh Judicial District.

**BIOGRAPHICAL.**  
The subject of this sketch is a self-made man. On the farm he made a fortune, and at the desk early in the life of J. M. Humphreys carved out for himself that elusive but ever sought-for success.

Born more than forty years ago on a farm in Ohio, and coming to a farm in Missouri by the favored wagon route when ten years old, he spent his boyhood and early manhood on the farm, and in summer months he would travel with a milk wagon, and in winter months he would travel in a country school. By close economy he was enabled to attend a law school, and secure the license of Bachelor of Science and Bachelor of Laws. After being principal of schools for several years he came to the gold fever of Colorado and entered it. After working for several years in the gold mines when the big strike came he, with many of his fellow workers, left the state. He then entered the university of Kentucky where he soon graduated from the law department with high honors. As the field for his life's work within ten years he has by keen ability, unswerving honesty and the possession of a fine judicial mind, secured upward in his profession until today he occupies an enviable position at the bar equaled by few.

When the unanimous request of the delegates from the Seventh Judicial District was made known to Mr. Humphreys he considered the honor conferred upon him should not be refused and accepted the nomination though well knowing that such acceptance would entail no small financial sacrifice—Executive Committee.

REPUBLICAN NOMINEE FOR SHERIFF

Mr. Morris is at present the officer in the U. S. constable at Ada. He has held this office for three years during which time he has faithfully seen to the full a long and arduous and important duty. During many years he has been serving as a deputy sheriff in the county, and in many of the farms in this county who have been his friends. He is a native of Texas, and in his early life he resided until coming to the Chickasaw Nation eight years ago. He wishes voters to understand if elected the county's first sheriff his every effort will be devoted to the service of all the people and to making this an orderly law-abiding community.

Mr. Morris was born 10 years ago in old Tarrant county, Texas, in which state he resided until coming to the Chickasaw Nation eight years ago. He wishes voters to understand if elected the county's first sheriff his every effort will be devoted to the service of all the people and to making this an orderly law-abiding community.

GIDDINGS WILL SPEAK.

It is announced today from democratic state headquarters that Hon. C. F. Giddings of Oklahoma City will speak in Ada Thursday night. The meeting will probably be held in the open air, and Geo. Thompson, chairman of the county committee, says the county democratic nominees now out in the county will all be present and make brief addresses to the voters. Also a democratic club will be organized.

MARKET.

Cotton futures closed 6 to 8 points lower than yesterday after advancing earlier in the day 20 points. Spots unchanged.

Stay in the Fight.

MRS. CURTIS ON PROHIBITION.

The Sherman Order Captures Large Contribution at Meeting, Last Evening.

The third prohibition meeting held in Ada last evening, and Mrs. N. M. Curtis of Sherman was the central figure. Those who came to the meeting and contributed were not disappointed. And those who came to the meeting and contributed were not disappointed.

The third prohibition meeting held in Ada last evening, and Mrs. N. M. Curtis of Sherman was the central figure. Those who came to the meeting and contributed were not disappointed.

When the unanimous request of the delegates from the Seventh Judicial District was made known to Mr. Humphreys he considered the honor conferred upon him should not be refused and accepted the nomination though well knowing that such acceptance would entail no small financial sacrifice—Executive Committee.

REPUBLICAN NOMINEE FOR SHERIFF

Mr. Morris is at present the officer in the U. S. constable at Ada. He has held this office for three years during which time he has faithfully seen to the full a long and arduous and important duty. During many years he has been serving as a deputy sheriff in the county, and in many of the farms in this county who have been his friends. He is a native of Texas, and in his early life he resided until coming to the Chickasaw Nation eight years ago. He wishes voters to understand if elected the county's first sheriff his every effort will be devoted to the service of all the people and to making this an orderly law-abiding community.

Mr. Morris was born 10 years ago in old Tarrant county, Texas, in which state he resided until coming to the Chickasaw Nation eight years ago. He wishes voters to understand if elected the county's first sheriff his every effort will be devoted to the service of all the people and to making this an orderly law-abiding community.

GIDDINGS WILL SPEAK.

It is announced today from democratic state headquarters that Hon. C. F. Giddings of Oklahoma City will speak in Ada Thursday night. The meeting will probably be held in the open air, and Geo. Thompson, chairman of the county committee, says the county democratic nominees now out in the county will all be present and make brief addresses to the voters. Also a democratic club will be organized.

MARKET.

Cotton futures closed 6 to 8 points lower than yesterday after advancing earlier in the day 20 points. Spots unchanged.

Stay in the Fight.

### Ballots Will Be Printed.

Guthrie Aug 2.—The state election board met here today and organized by electing acting Governor Charles H. Wilson chairman. The other two members are Jerome Harrington (rep) of Watonga and Judge C. A. Galbraith (dem) of Ada.

The contract to print the 2,000,000 ballots necessary for the state and constitutional election on September 17 was let to W. E. Verity and W. L. Chapman of Shawnee for \$12,440.

Bids were submitted by the Guthrie Daily Leader for \$16,729 and Hobart News-Republican for \$85,000.

George T. Robinson negro of Watonga filed his petition to get on the ballot as an independent candidate for congress in the second district the regular republican nominee being ex-Gov. Tom Ferguson.

Today was the last day that certificates of nomination could be signed. The board will hear all contests tomorrow.

### For Statehood.

Taylor Lanham, republican nominee for county commissioner, was in the city. Mr. Lanham says that he is for statehood and is of the opinion that he will vote for the constitution. He does not endorse every provision but he suggests that there never was a constitution that pleased everybody. He expressed himself as not in favor of a territorial form of government.

## RAILROADS IN DISTRESS

### Early Morning Wreck on Frisco Sid-ing--Canadian Bridge Burned--Rumors of Dangerous River Rise.

It has been a strenuous twenty-four hours with the railroads in this vicinity. At 8 o'clock this morning a broken rail on the Frisco siding wrecked the switch engine tender and a coal car and caused a resulting fire. Since the southbound 8:23 Tuesday morning train to Tucuman John Colvin, the switching crew, composed of the Frisco conductor, Engineer C. K. Overly and fireman John Colvin had arrived from Tucuman and begun the day's work in Ada. As a string of cars was being pulled along the siding track adjacent to the ice plant a rail supposed to be defective broke and collapsed under weight of the engine. The tender and coal car in its turn fell on the track and fell over on the siding. The engine remained upright but fell on the track and off the track which caused with injuries to its mechanism and is entirely horsed. A fireman, John Colvin, had just entered the tender to replenish his fire when the crash came, hurling him through the narrow aperture into the siding. Fortunately he escaped with minor injuries. The head brakeman, John Colvin, fell from the roof of the tender and sustained a broken leg. Engineer Overly says both engines and tender are badly damaged. Arrival of the wreck train in Francis was delayed several hours, waiting for an engine to pull it home.

The cars fallen on the south siding instead of the north siding would have been badly demolished but it escaped untouched. It will take the wrecking train hours, probably to clear the track. About 8 o'clock Tuesday night the Frisco bridge across the South Canadian river just north of Francis caught fire and 12 truss of the bridge are reported destroyed. This bridge is three-fourths of a mile long, built largely of wood. While the origin of the fire is unknown, it may have been accidental. Many leaking oil tanks pass over this line, saturating the timbers so that a small ember from a locomotive might start a disastrous fire. Since the southbound 8:23 Tuesday night all Frisco trains have been detoured over the Katy via Shawnee to Holdenville. This arrangement must continue probably for two or three days until the bridge is repaired. Some of the railroad men hope the company may be persuaded to build a durable concrete structure over the Canadian.

There have been current some exaggerated reports about dangerous rises recently on the Canadian, even to the effect that 300 men were hurried to the Katy bridge at Lyola to save it from the high water and floating debris. But this was not confirmed at the Katy station. There has been a pretty big rise in the river originating out in New Mexico but no uneasiness is felt regarding the bridge. At present the water flow is normal. It is also rumored that another big rise five feet high is expected to reach the Lyola bridge this afternoon. Two other accidents are to be added to the days' calendar of trouble. A Frisco employee, while speeding on his railroad bicycle from the river last night to inform officials at Francis of the fire at the bridge ran into the Saskia section crew who were returning home on a handcar from Francis. It is reported that one man suffered a broken leg in the collision. About 11:30 this morning in the Francis yards there was a head-on collision between two freight engines. Slight houses were received by a passenger by one of the engines and by one of the firemen. Little further damage is reported beyond the destruction of the two cow-catchers.

## WILL PROSECUTE STRIKERS

### Western Union Charges them with Causing Trouble on the Wires--Operators Deny the Charge.

Chicago Aug 27.—Criminal prosecution of railroad telegraph operators who out of sympathy with the striking commercial men are causing trouble on the wires is threatened by the officials of the telegraph companies. The Western Union company, which is the greatest sufferer in this respect has been secretly conducting an investigation and a number of arrests are expected at any time.

Superintendent L. P. Cook of the Western Union declared today that a detective would be placed in every office in the country if the interference with the wires assumes such proportions as to make that course necessary. The Western Union controls the wires on practically every railroad in the country and its commercial business in many instances goes through the railroad offices. Since the beginning of the strike it is said the trouble with the wires has caused more inconvenience than has the lack of operators. While he was unwilling to admit that there was any serious interruption to business, Mr. Cook said an investigation was under way and some of the alleged guilty parties might find themselves in an embarrassing position before long. He would not say where he expected arrests to be made but declared that the statutes on the subject were strict and the company was not asleep in the matter.

At union headquarters the strike leaders disclaimed any responsibility for the trouble. There is more or less wire trouble under the most favorable conditions," said Secretary Wesley Russell. "The Western Union usually employs from thirty to forty men in its Chicago office, whose business it is to look out for wire trouble.
